

PX10 Advanced POS Terminal

COST-EFFECTIVE WITH A COMPACT, SLEEK AND FAMILIAR LOOK AND FEEL OF A TABLET

For a lot of leading-edge food service or retail concepts, there's just no need for larger, more rugged, higher-powered terminals. Also, many existing chains are beginning to recognize a need to deploy additional terminals at some of their sites and are looking for flexibility and a compact design.

Versatility in a Compact Machine

The PX10 runs either Windows 10 or Android in a sleek chassis that anchors the 10.1" LED backlit LCD glass screen to deliver full HD and projected capacitive touch technology. Internally, solid-state components enable a fanless design so there are no moving parts to break. You can also mount an equally impressive 7" display on the back so your customers can visually keep track of their order as it's entered, ensuring a high level of order accuracy.

Every business is different, which is why we built the PX10 to be one of the most versatile form factors on the market. Choose the amount of RAM and SSD space that suits your specific needs. You decide whether or not to include options like a **mag stripe reader, scanner, wi-fi capability, biometrics, or battery backup.**

When it comes to connectivity, the PX10 has an impressive Input/Output profile. But if the onboard ports aren't enough, expansion options give you even more of what you need to connect this terminal to your business. A separate battery is available that snaps directly onto the base of the terminal so it doesn't compromise the clean look and feel of the device.

Simply Easy to Use

The tablet-like chassis is made of durable metal with a resilient touchscreen. A single hinge allows staff to adjust the device to the most comfortable angle based on height and/or preference. You can either mount it to a cash drawer magnetically or secure it directly to a countertop for greater security.

For those and other similar situations, the NCR PX10 Advanced POS Terminal is a perfect fit. Purpose-built to handle today's most innovative POS solutions, the PX10 combines the stability and uncompromising quality of a fixed terminal with the compact, sleek and familiar look and feel of a tablet.

Every business is different, which is why we built the PX10 to be one of the most versatile form factors on the market.

KEY FEATURES

- High-quality components in a compact, tablet-like design
- Durable metal construction with resilient touchscreen technology
- Hinge to adjust angle/height of touchscreen
- Open Architecture
- Secure I/O access when mounted to countertop

TECHNICAL SPECIFICATIONS

TOUCH SCREEN

- 10.1" Wide Full HD LED LCD
- Projective Capacitive Touch

PROCESSOR

- Intel CPU – Dual-core (N3350 up to 2.4 Ghz)

MEMORY

- 4GB RAM standard
- Option for 8GB RAM

STORAGE

- 32GB, 64GB or 128GB SSD

DESIGN

- Fanless design with tilt hinge

OPERATING SYSTEMS

- Windows® 10 IoT 64bit
- Android (6.0)

CONNECTIVITY

- Cash Drawer
- Ethernet
- 1xUSB Type-C
- 2xUSB Type A
- 1xRJ45 Serial
- SIM Card Slot

OPTIONS

- MSR
- Biometrics
- Front or back integrated scanner
- I/O expansion box
- Battery
- Wifi (802.11 a/b/g/n/ac)
- 7" Customer Display
