

NCR XR8c

COMPACT DESIGN WITH CONFIGURABLE CONNECTIVITY

SCALABLE PERFORMANCE AND FLEXIBLE CONNECTIVITY IN A COMPACT FOOTPRINT

Small, but mighty

The NCR XR8c is powered by the latest 6th generation Intel® Core™ processor technology and can be used as a POS terminal or a back-office server. You can select from a variety of processor options to best meet the needs of your stores. The XR8c is available with a single or a dual solid state drive (SSD), offering RAID support.

Flexible configuration

The XR8c's compact design will fit into almost any retail environment. Its bold black color has a modern appeal, and it coordinates with a full range of black peripherals including displays, printers, keyboards, scanners, and cash drawers. The XR8c's configurable connectivity includes 10 USB ports, up to 4 serial ports, and up to 3 video ports—letting you customize the I/O to best meet the needs of your stores.

Service made easy

The XR8c is built to last with a rugged housing that provides easy access for servicing. On board odometers help proactively monitor the terminal to help minimize downtime. An image recovery feature lets you quickly and easily restore a saved POS software image with the press of a button. Lastly, Intel® Active Management Technology is available with certain models to let you remotely monitor, upgrade, or even repair a terminal.

The bottom line

The NCR XR8c saves space and is designed for almost any retail checkout environment. Combine it with NCR's extensive family of retail peripherals for a complete POS solution customized to meet your unique requirements.
